

## Infection Prevention Tools Prevention

*The Infection Prevention Tools will help you complete section 1.4 of the Pandemic Influenza Plan Template.*

Schools play a key role in communicating preventive health messages. Posting infection prevention posters throughout your school is one way to increase awareness of the importance of key preventive health practices. Improved preventive health practices can improve health and attendance now as well as serve as an important preventive factor in the event of an influenza pandemic.

Examples of two posters are included in this toolkit:

- Limit the Spread of Germs
- Wash Your Hands.

These posters are available in English, Spanish and Vietnamese at:  
[www.sccphd.org/panflu](http://www.sccphd.org/panflu).

From the homepage you have to click on “Pandemic Information” and scroll to the middle of the page to get to the poster links.
