

Individual Student Continuity of Learning Plan

The Individual Student Continuity of Learning Plan is to be completed for each student with special needs (special education students, medically fragile/chronically ill students (if not included as special education students), and students needing interpreter/translation assistance to be able to do school work at home).

Review the Class-Level Continuity of Student Learning Plan and the Student/Family Home Technology Questionnaire for the student prior to completing this plan. The tool, Examples of Home Learning Methods and Alternative Instructional Strategies, is also available to assist you in completing this learning plan.

Name of Student:	Grade:
Phone Number	
Fax Number	
E-mail Address	
Street Address, City, Zip Code	

If schools are closed and learning must continue at home:

The student will get their assignments and lessons via		
The teacher will communicate with the student via		
Discussion of material will take place using		
Expected challenges		
Planned strategies for addressing those challenges <i>Specify how instruction will be made available in accessible formats (e.g., use of captioning, narration, screen readers, magnifiers, high volume headsets, TTY, TDD, large print and Braille) as needed.</i>		

Identify the alternative instructional strategies you will use for this student.
